# POWIS | Image Blank™

THE POWIS IMAGE BLANK™ represents a new level of binding customization. Now every document you bind can promote your brand, enhance your image, and ensure that each prospectus, manual, proposal or report that you produce is a cut above the competition. People will notice.
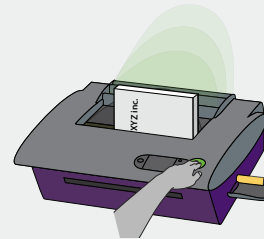

The Image Blank comes with Powis thermoplastic adhesive on the strips. You choose the graphics, colors, branding and logos, design using our template, and print your designs on an inkjet printer. Add Powis Clear or Composition Covers, and your Image Blanks... now Image Strips... can take the most ordinary documents and turn them into something special that everyone will notice.

1 Design your strips using our template.

2 Print your designed strips on an inkjet printer using the Powis Image Blank Sheet.

3 Release the printed strips from its back sheet. Bind using Image Strip mode on the Fastback 20.

4 That's all there is to it!
